PREFACE

The main theme of this book is to share experiences and reflections regarding digitally enhanced teaching and learning. Stories as narratives from various countries and educational institutions were presented and detailed in order to display the whole picture of the outcomes of Covid-19 online education. Societies are to transform as a consequence of the constant changes regarding life conditions. In this respect, several educational practices were developed or adapted to be effectively used in digitally enhanced teaching and learning during the Covid-19 pandemic. This book sheds light on the narratives of digitally enhanced learning and shares personal and professional stories, gained experiences and skills.
